Re: Design Review and Concept Review
North End Neighborhood Council

Planning Commission Members:

The North End Neighborhood Council (NENC) made a presentation to the Community Council of Tacoma (CCOT) at its June meeting regarding Design Review and Concept Review.

The CCOT is in support of their proposed recommendation regarding the Concept Review component of the Design Review process. We encourage the Planning Commission work with NENC to develop and implement a system where community members, developers, and planners can work together in the earliest stages of the process.

Again, CCOT thank you for your attention and consideration in addressing these recommendations.

Sincerely,

Elton Gatewood

Elton Gatewood, Chair, CCOT
